Subject: Re: DEP Secretary letter about Dimock water

Hi Laura,

This is in response to your question about the Krancer letter.

EPA has received Secretary Krancer's letter dated Jan. 5, 2012 to EPA Regional Administrator Garvin. As the Secretary acknowledges in his letter, Mr. Garvin reached out to him regarding EPA's activities in Dimock, Pa.

EPA intends to work cooperatively with PA DEP. We continue to keep Mr. Krancer and the Department updated as we're actively reviewing the situation in Dimock and filling information gaps.

As for the situation in Dimock, this statement still reflects the current status of things.

We're actively reviewing the situation in Dimock and filling information gaps. We're evaluating next steps including sampling some of the residences' well water. We have not made a decision to provide water at this time. As soon as we have more, we will announce it.

Subject: DEP Secretary letter about Dimock water

Hi Terri,

I received a copy of this letter from Pennsylvania Department of Environmental Protection Secretary Michael Krancer to EPA Region III Administrator Shawn Garvin this morning and plan to write an article about it today.

Would the EPA like to respond to the letter?

Thank you again. And, as before, if you can add any clarification on the situation in Dimock regarding EPA-arranged deliveries of water supplies and water testing, I'd appreciate it. (No one has yet offered an explanation of what happened to stop the emergency water deliveries apparently arranged by Rich Fetzer.)

Best,
Laura Legere
